RESEARCH INTEREST

My research focuses on designing socially responsible AI models that address real-world data challenges, grounded in social data science and responsible AI, with an emphasis on data mining and graph learning methods.

EDUCATION

Chung-Ang University , Seoul, Korea BS in <i>Computer Science and Engineering</i>	March 2023 - Feb. 2027
Sejong University , Seoul, Korea Certificate in <i>Korean Language and Literature</i>	Sept. 2021 - Feb. 2023
University of Information Technology , Yangon, Myanmar Major in <i>Computer Science</i> Completed 5 semesters of a 5-year curriculum (<i>Voluntary Withdrawal</i>)	Dec. 2017 - May 2020

POSITION

Undergraduate Student Researcher Machine INtelligence & Data Science - MINDS Lab @ CAU <ul style="list-style-type: none">• Topic: Fairness in AI models• Supervisor: Prof. Yunyong Ko	May 2024 - Present
